

TASKED PRIVACY POLICY

Tasked Platform is not intended for children under 14 years of age. No one under age 13 may provide any personal information to or on the Site. We do not knowingly collect personal information from children under 14. If you are under 14, do not use or provide any information on this Website or on or through any of its features. If we learn we have collected or received personal information from a child under 14 without verification of parental consent, we will delete that information. If you believe we might have any information from or about a child who is less than 14 years of age, please contact us at clo@taskedapp.com.

1. Personal Information Collected on the Tasked Platform

Because we respect your rights to your own privacy, we are committed to our policies established for the collection and/or use of your “Personal Information,” which is hereby defined as “full name, phone number, email address, age, birth date, and any information that could be used to identify, contact, or locate you directly without using the Tasked Platform.”

For the purposes of this Policy, Personal Information does not include your photograph or other images posted in your tasks.

By using the Tasked Platform, you are authorizing us to collect, parse, and retain data related to the provision of the Tasked Platform. However, we also provide Users with options and choices regarding how we use and disclose some or all of your Personal Information, as set forth specifically below, including how to access, correct, and/or remove it. You may avoid further said data collection by uninstalling the App from your mobile device and not otherwise using the Tasked Platform.

When you visit or use the Tasked Platform, we collect information about you in the following general categories.

- **Location Information:** We collect precise location data through the App when it is used by Taskees if the Taskees' devices permit such information collection. We may collect this information when Taskees use certain functionality, such as navigating to a location to provide the Services, and we may also collect the precise location of a Taskee's device when the App is running in the foreground or background. We may derive a Taskee's approximate location from the Taskee's IP address. The Tasked Platform utilizes geo-location features to match Assignors to Taskees, to update, to confirm that a Taskee performed Services, and to improve the services on the Tasked Platform.

We also may use and disclose geo-location we collect through the Tasked Platform for other business purposes, including for legal purposes (such as to enforce our agreements). The geo-location information obtained about a User will be retained in an identifiable manner, along with geo-location data about job sites where Taskees performed Services on initial and/or follow-up jobs.

- Transaction Information: We collect transaction details related to your use of the Tasked Platform, such as type of service requested, date and time of service, amount charged, intra-User communications, ratings and reviews, and other related transaction details.
- Taskee Registration and Payment: To register as a Taskee, you may need to provide other Personal Information, bank account and a government-issued I.D., and we may collect additional business or contractor licenses. We share certain information with our partners who help us by running background checks on Taskees to help protect the Tasked community. We may use report information we receive from background checks of Taskees for the purposes of assessing whether to permit an individual to use the Tasked Platform as a Taskee and to comply with applicable law. To make sure Taskees get paid, we keep information about Taskee's bank, tax information, and any other payment information provided by Taskees. To keep your data secure, we do not store your full bank account information or social security number on our servers.
- Tasked Payment Method: When you add a credit card or payment method to your Tasked account, a third party that handles payments for us will receive your card information. To keep your financial data secure, we do not store full credit card information on our servers.
- Usage and Preference Information: We collect information that is generated automatically about how you and visitors interact with the Tasked Platform, preferences expressed, and settings chosen. When we associate such information with specific personal information, we will treat the combination as Personal Information, as set forth herein.
- Communications Between Users: We do not reveal telephone numbers submitted on file, although we store any chat, including associated date, time, and content.
- Device Information: We may collect information about your mobile device, including the following examples: the hardware model, operating system/version, software names/versions, file names/versions, preferred language, unique device identifier, advertising identifiers, serial number, device motion information, and mobile network information.
- Log Information: When you interact with the Tasked Platform, we collect server logs, which may include device IP addresses, access dates and times, app features or pages viewed, app crashes and other system activity, browser type, and the third-party site/service accessed immediately prior to interacting with the Tasked Platform.

- Third-Party Site Account Access: If you log in to the Tasked Platform through a social networking site, such as Google or Facebook, we may collect your authentication token, registration information, and account identification number and use that information to provide you with access to your account on the Tasked Platform.

2. Use of Information

We only use your Personal Information for Tasked-Platform related purposes.

Specifically, the purposes of our “use” include platform-analytics, marketing, advertising, and other purposes designed to help us efficiently operate and improve the Tasked Platform in the following manner:

- to contact you in connection with your Tasked-related activities (including, but not limited to, confirmation emails, account verification text messages, push notification alerts, or important alerts that could affect your relationship with Tasked),
- for identification and authentication,
- for security and fraud prevention,
- to perform background checks,
- to investigate potential unauthorized use of your information by a Taskee,
- to communicate Service requests from you to other Users, and/or
- to suggest potential Assignors for your Services.

3. Sharing Personal Information with Third Parties

We do not sell or rent your personal information to third parties for their marketing purposes without your explicit consent.

We may combine your personal information with information we collect automatically such as the type of tasks you perform or engage in and use it to improve and personalize our services, content and advertising.

We may provide your personal details to third parties, only in order to operate the Site, and prevent fraud and illegal activities, as detailed below:

- to service Taskees for the purpose of opening, operating and servicing your account (example - payment vendors, CRM systems, mailing systems or technical consultants);
- to respond to a subpoena or court order, judicial process or to regulatory authorities; and
- to protect against fraud, unauthorized transactions (such as money laundering), claims or other liabilities. We do not collect credit information; but allow our payment vendors to collect information for the purpose of collecting payments from buyers on the Site or transferring payments to sellers on the Site. We are not exposed to the payment information provided to our payment vendors, and this information is subject to the privacy policy applicable to the payment vendor.

4. Security

We take great care in maintaining the security of the Site and your information and in preventing unauthorized access to it through industry standard technologies and internal procedures. However, we do not guarantee that unauthorized access will never occur. Users who have registered to the Site agree to keep their password in strict confidence and not disclose such password to any third party.
